

6TH FOT-NET STAKEHOLDERS WORKSHOP MEETING OBJECTIVES

Brussels, 28 November 2011

Irina Silva, ERTICO – ITS Europe, i.silva@mail.ertico.com

FOT-Net is a support action co-funded by the European Commission to network FOT activities at European, national and international level.

INFO PACK MATERIAL

- Agenda
- List of participants
- Newsletter (Sept edition)
- Questionnaire → please hand it back to our team at the end of the meeting!

TODAY'S OBJECTIVES

- Overall:
 - Provide a forum for cooperation, discussion and information exchange, addressing FOT issues that have been identified as of high-priority to the stakeholders
 - Gather European players interested in FOTs
 - Share information, results and developments of ongoing trials
 - Foster cooperation and exchange of information about planning, developments and results of FOTs
 - Update on FOT-Net activities
- Specifically:
 - Address “Exploitation of FOT Results”
 - Hear the expectations from stakeholders from within and outside the FOT community towards FOT results
 - Present examples of exploitation plans of FOTs
 - Draw recommendations towards the sustainability of FOT results and how past experience can be capitalised
 - Discuss the concepts of large scale actions and innovation incubators, in cooperation with newly kicked-off EC funded project SATIE (Support Action for Transport – ICT European large scale action).
